

Community Name:	Barber Heart	Course:	Ensign College IT 340 fall 2021
Community Type:	A business plan to create	Student:	Carlos Geovani Vigueras Flores

Community Description	Community Purpose	Key products and services created by, offered by, or used by the community	Key community needs that your BI will support
Is a community for barbers, hairstylist and cosmetologists. We focus on creating connections and relationships that will help each other to find more jobs, techniques, new, clients, tools, providers, and more into the world of cosmetology.	We are here to help each other to build a bigger and better network of clients and employers. This is a club that helps you to connect with other barbers that can connect you to other barbers, employers or providers.	Products and services: -Barber Tools by wholesale -Job opportunities - Training and education - Workshops -Coaching -Furniture and Equipment for hair salon	The community of hairstylist recently needs its presence online because of the advantages that networking can bring. we want to build a place well people can contact other people who's looking for jobs or barbers.

Why does this community interests you?	the main reason why I chose to create this community is because I have a license as a Barber, and I have had my own Barber shop in the past. As an international student I realize that hairstylists need a place in America to create business connections and grow as a barber, business, or employer.
What are the key entities involved with this community?	Barbers – the people who is looking for a job. Cosmetologists – the persons who have a license to work. Hair Salon – the places that accept hairstylists. Barbershop – The places that accepts Barbers. Providers – The business that provide products to barbershops or barbers. Employers – The people who will connect and look for workers. Inventory – the products and services that are offered for both.

How's data being use, can data being used or is data being use by this community?
